

KOIL FOAM is a powerful, thick, clinging foam, which removes dirt, lint, and grease from air conditioner and heater coil fins. Portable aerosol features a strong directional spray which helps force foam into coil air spaces. Water-based foam creates no harsh vapors and leaves a fresh natural scent. Increases efficiency and reduces consumption.

Use **KOIL FOAM** on radiators, roof heating and cooling units, wall and window units, ventilators, dryers, ice machines, and refrigerators.

*Normal condensation on coil fins rinses away restrictive build-up and grime.

DIRECTIONS:

Before using **KOIL FOAM**, protect all electrical equipment and parts with plastic or aluminum wrap. Spray area thoroughly with penetrating and holding foam. Foam breakdown and dirt absorption indicates when surface may be flushed clean. For stubborn build-up, a repeat application may be necessary. Shake frequently during use.

KOIL FOAM contains natural ingredients that are:

- Non-Toxic
- Non-Polluting
- Non-Hazardous
- Non-VOC's
- Biodegradable
- Non-Flammable
