NET CONTENTS 18 OZ(S)

CITRA POWER is a simple, safe one step solution to removing baked on grease, grime and carbonized food from ovens, grills, barbecues and hoods. Sprays as a heavy foam that clings to vertical surfaces and extends cleaning time. Powerful cleaning agents quickly dissolve and break the bond of baked-on, carbonized soil. Cleans with minimal scrubbing, scraping or scouring. Pleasant citrus aroma helps eliminate harsh chemical fumes.

DIRECTIONS

Works faster on oven preheated to 200°F. Turn off electric current or gas pilot light before use. Protect floors and exterior cabinet trim from overspray. Remove and clean racks separately. Wear gloves. Shake well. Spray at a distance of 8 to 12 inches. Allow foam to stand 5 to 10 minutes. Allow longer for cool oven. Wipe clean. For establishments operating under the Federal Meat and Poultry Products Inspection Program, cleaning must be followed by a potable water rinse. Improved cleaning action with less fuming and a mild citrus aroma.

CAS Numbers: Contains 1,2,3-Propanetriol (56-81-5), Potassium Hydroxide (1310-58-3), Butane (106-97-8), Propane (74-98-6), and Citrus Terpene (5989-27-5).

CAUTION

Avoid contact with eyes and mucous membranes or prolonged contact with skin. Do not expose to heat or store at temperatures above 120°F.

FIRST AID

IF IN EYES: Flush with large amounts of cool running water for at least 15 minutes while holding upper and lower lids open. If irritation persists get medical attention immediately.

IF ON SKIN: Wash with a mild water and vinegar solution. If irritation persists seek medical attention.

IF INHALED: Remove to fresh air. Seek medical attention immediately. If breathing stops give artificial respiration.

IF SWALLOWED: Do not induce vomiting. Drink large quantities of water or milk, followed by citrus fruit juice. Seek medical attention immediately.
