

RESTORE is a protective spray that can be applied to tires, vinyl surfaces, underwater equipment, luggage, cameras, airplanes, boats, plastics, etc. It is an odorless, colorless, non-flammable aerosol spray that can be used to waterproof, block out ultra violet rays, protect from dirt, acid vapors, oxygen, absorb and deactivate ozone and restore color. On vinyl surfaces, it inhibits cracking, fading and hardening. Rubber and leather also benefit from the excellent protective and restoring properties of this formulation.

RESTORE cleaner/protector can be used on glass surfaces such as display counters, tables, mirrors, etc. to shine, brighten, and protect while reducing maintenance costs. The protective coating is long-lasting, safe to use, applies easily, leaves no film, is non yellowing and requires no mixing.

DIRECTIONS

Apply lightly to a clean, dry surface with either a soft, clean cloth or directly from can. For best results, buff immediately to a high gloss with a soft dry cloth. Additional coats may be periodically applied to increase water repellency, luster and non-soiling qualities. Apply to surfaces indoors or at room temperatures.

CAS Numbers: Water 7732-18-5; Isopropanol 67-63-0; Isobutane 75-28-5; Poly-dimethyl Siloxane 63148-62-9.

GENERAL MAINTENANCE PRODUCTS

CAUTION

Contents under pressure. Do not puncture container. Do not store at temperatures exceeding 120°F. Do not incinerate or spray into open flame. Avoid contamination of food. Do not spray into eyes.
