GENERAL MAINTENANCE PRODUCTS

FAST START Starting Ether

- Starts Diesel and Gasoline Engines Quickly
- Works in Damp Weather and Temperatures Down to -60°F
- Cleans and Lubricates Upper Cylinder and Combustion Chambers
- Ozone Safe Propellant

CAUTION: Extremely flammable. Contents under pressure. See side panel for additional cautions.

**KEEP OUT OF REACH OF
CHILDREN**

NET CONTENTS 11 OZ(S)

FAST START is an extremely flammable material packed in a high-pressure container to give great vaporization and combustion in cold weather. Starts all diesel and gasoline engines. **FAST START** is effective after overhauling, in damp weather, and especially in cold temperatures as low as -60°F. Engines start quickly and run without excessive battery drain or damage. Lubricates upper cylinder and cleans combustion chambers. When mixed with the fuel in the cylinder, it also improves the octane rating.

Use on all diesel, gasoline and industrial engines, and landscape and farm equipment.

DIRECTIONS

Shake can well before using. Holding the can upright, spray directly into air cleaner, intake air stream, or primer port while turning over the engine. Continue spraying until engine runs smoothly.

CAS Numbers: Contains diethyl ether (60-29-7), heptane (142-82-5), mineral oil (64742-13-8), and carbon dioxide (128-38-9).

CAUTION

Contents under pressure. Do not puncture, incinerate or store where temperature is above 120°F. Prolonged exposure to sunlight or other sources of heat may cause bursting. Use only in well-ventilated area. Avoid prolonged breathing of vapors or contact with skin. Intentional misuse by deliberately concentrating and inhaling vapor content may be fatal. Harmful or fatal if swallowed.

FIRST AID

IF IN EYES: Wash and flush thoroughly with water. If irritation persists, seek medical attention.

IF ON SKIN: Wash and flush affected area thoroughly. If irritation persists, seek medical attention.

IF SWALLOWED: Call a physician, hospital, or poison control center immediately.
