## GENERAL MAINTENANCE PRODUCTS

### BE GONE Commercial Eraser

**CAUTION:** Do not take internally. See additional cautions on label.

**KEEP OUT OF REACH OF CHILDREN**

CASE BOX CONTAINS: 24 PADS, 4.8 x 2.6 x 1.5

Use to synergize or enhance any cleaning chemical or process. Combine with water and erase away any marks, dirt, stains, or any other material on any surface. Removes crayon, marker, ink, etc. **NO VOCs.**

- Advanced Technology BASF Melamine Construction
- Chemical Free – Use with Ordinary Tap Water Only
- Fortified with Blue Durability Strip for Maximum Life
- Easily Conforms to Contours and Grooves to Get to the Tough Stuff
- Ideal for Cleaning Crayon, Marker, Ink, Lipstick, Tea & Coffee Stains, Soap Scum, Scuff Marks, Fingerprints, Hard Water Spots, Red Wine Stains, Nicotine Film, Rust Spots, Pencil, Carbon Residue, Burn Marks, and More

This innovative cleaning product is powered by the microscopic abrasive qualities of genuine BASF melamine resin-based material. When combined with water, the unique properties of gentle abrasion and conformability “erase” away stains and marks often untouched by many chemical products. This chemical-free approach to cleaning is an environmental breakthrough and ideal for use in the most restrictive of regulatory concerns. The addition of the blue durability strip provides dimensional stability to harness both the power and the longevity of each individual eraser. The eraser quickly removes crayon, marker, ink, lipstick, tea & coffee stains, soap scum, scuff marks, fingerprints, hard water spots, red wine stains, nicotine film, rust spots, pencil, carbon residue, burn marks, and more from walls, floors, doors, vanities, sinks, faucets, appliances, and other surfaces such as glass, vinyl, leather, plastic, brass, chrome, copper – just about any surface you can find. Say “**BE GONE**” to your toughest stains and marks.

#### DIRECTIONS

Wet thoroughly with ordinary tap water and gently squeeze our excess. Be sure all white surfaces are damp – do not wring out. Scrub area to be cleaned by applying pressure as needed. Do not over scrub. Wipe area with dry cloth or disposable wiper to remove any residual water. Rinse eraser with fresh water and wipe white surfaces to remove build up of deposits and to extend the eraser life. Replace with a new one when white surface becomes worn, misshapen or too soft to perform.

**NOTE:** The mild abrasive may alter the appearance of certain soft plastic surfaces as well as painted finishes and wood sealers. If unsure of the effect, always test in an inconspicuous area. Use of this eraser without or with little water will increase this effect. Not recommended for use on surfaces that are glossy, dark, brushed, satin finishes, or aquariums.

#### CAUTION

Do not ingest. If this should occur, drink large volumes of water and seek medical attention. Avoid using eraser dry as fine particulate dust may be irritating if inhaled or in eyes. Do not use with chlorine bleach. If used for dishwashing, rinse dishes thoroughly before use.

**KEEP OUT OF REACH OF CHILDREN.**

**CAS Numbers:** Melamine foam 9003-08-1, flexible polyester polyurethane foam 9009-54-5.

Made in USA from foreign and domestic materials.
