

PINE ODOR CONTROL is a water soluble, industrial deodorant that is non-staining and can be used for most odor problems.

DIRECTIONS

General Deodorizing: Dilute 1:30 with water. Apply with mop, sponge, sprayer or by immersing small articles. If possible, allow surface to dry without rinsing for maximum deodorizing action. Provides exceptional odor control in many areas including: garbage trucks, concrete floors, airplanes and buses, animal cages, packing plants, moldy air filters and carpets, hospital rooms, toilets and urinals.

Sewage Treatment Plants: Allow product to drip into incoming wastewater at the rate of 1 drop every 5 seconds. If odor still persists after 4 hours, increase dosage to 1 drop every 2 seconds. After eliminated, cut back to 1 drop every 8 seconds. To remove odors around plant and grounds, dilute 1 part product with 30 parts water and spray concrete walls above the water line, walkways, ramps, grounds, etc.

Cattle Pens and Stockyards: Spray ground and area where odor persists with a solution of 1 part deodorant to 30 parts water. Initial treatment may have to be twice daily until odor is eliminated. Follow with treatment every other day to maintain odor free atmosphere. Cover all food and water before spraying. Remove cattle from area being treated.

CAS Numbers: Contains Water (7732-18-5), Oils, Pine (8002-09-3), Ethanol, 2-(2-butoxyethoxy) (112-34-5) and Nonionic surfactant (9016-45-9)

CAUTION

Keep product from freezing. Avoid contact with eyes.

FIRST AID

EYES: Flush with water for 15 minutes. Get medical attention.

SKIN: Flush with water for 15 minutes. If irritation persists, seek medical attention.

INHALATION: Remove to fresh air. Resuscitate if necessary. Get medical attention.

IF SWALLOWED: Do not induce vomiting. Drink 3 to 4 glasses of water or a large quantity of milk, egg whites or gelatin solution. Get immediate medical attention.
