

VOBAN is the easy, effective way to pick up and cover up unpleasant, untimely accidents. This improved formulation attacks and digests the source of odors, and actually leaves a pleasant scent. Helps discourage similar accidents from taking place.

VOBAN can be used for quick cover-up and pick-up of any such unpleasant emergencies. It constantly counteracts unpleasant mishap odor, leaving a pleasant aroma and possibly preventing the occurrence of a similar accident.

VOBAN is recommended for schools, daycare centers, hotels, hospitals, churches, restaurants, taverns, stores, kennels, parks, buses, trains, taxis, police and rescue vehicles, and virtually any other public place.

DIRECTIONS

1. When vomitus or other mishap occurs, spread a ½ inch layer of this aromatic absorbent onto the problem area.
2. Allow a short period for absorption. Then sweep or scrape spillage onto a dustpan, a piece of cardboard, or back into reclosable bag for easy disposal with no trace of the accident.
3. If the area remains slightly wet, sprinkle more absorbent and work it in with a broom. (NOTE: When used on carpeting or upholstery, remove promptly after absorption is complete).

GENERAL MAINTENANCE PRODUCTS
