

QUICK SWEEP is a dust and debris control compound that enhances the ability to sweep debris and control dust. This innovative product can be used on ordinary wood or cement floors, and reduces surface tension to allow less effort while sweeping. **QUICK SWEEP**'s formulation contains a dust absorbent fiber that allows an effortless broom stroke. This product can be used for heavy-duty or light sweeping, is nontoxic, noncorrosive and is completely safe and usable in a wide variety of applications. In addition to wood and concrete, **QUICK SWEEP** can also be used on terrazzo resilient tile and many other hard surface floors. This product eliminates hazardous situations caused by dust and debris accumulation.

NOTE: Do not confuse **GMP's QUICK SWEEP** with other products that may look or claim to be the same. There is only one **QUICK SWEEP**, and with substitutes you may sacrifice user safety and product performance.

DIRECTIONS

Spread a light layer of **QUICK SWEEP** over the surface to be cleaned and swept. Sweep in one direction, allowing product to glide over surface while accumulating debris and minimizing dust. For heavy debris areas, the above process may have to be repeated. Do not allow the product to dry out after the container is open. Keep the protective liner tightly sealed for ultimate product performance.

CAS Numbers: Contains sand (14808-60-7), sawdust (N/A), oil (64742-65-0), water (N/A), and perfume (98-55-5).

CAUTION

This product is intended for industrial and institutional use only.

FIRST AID

IF IN EYES: Flush eyes with plenty of water. If irritation persists, seek medical attention.

IF ON SKIN: Flush affected area with plenty of water. If irritation persists, seek medical attention.

IF INHALED: Remove to fresh air. Seek medical attention if irritation persists.

IF SWALLOWED: Seek medical attention if irritation occurs.
