

**DRAIN-FOAM** utilizes BioTec Technology, which is the science of using microbes and enzymes to dispose of "FOG" and food waste safely, economically and rapidly. BioTec Technology consists of microbes and enzymes producing complex chemical reactions that metabolize "FOG" and food waste into carbon dioxide and water.

Floor and sink drains become clogged with "FOG" and food waste which create foul odors and breeding grounds for pests. Most drain cleaners only "burn" their way through "FOG" and food waste creating a small hole for water flow. These cleaners only liquefy the "FOG" which means the "FOG" re-solidifies causing problems in grease traps as well as downstream in treatment plants.

**DRAIN-FOAM**, however, creates a foam that not only clears clogs, but acts as a delivery system that embeds the microbes and enzymes into the waste clinging 360° to the side of the pipes. This action allows the microbes and enzymes to consume the "FOG" and food waste. Enzyme only based products do not have the time or ability to completely remove accumulated waste that causes clogs or slow drains. Use as a companion product to **GMP BAC-MAN**, or to give your drain maintenance a real power punch, substitute **BAC-MAN** or **BREAKDOWN** instead of water when treating the drain to synergize all activity and give a very thorough 360° cleaning process of all drains.

#### DIRECTIONS

Apply 4 ounces of **DRAIN-FOAM** into 2 inch clogged or slow drain. Apply 4 ounces of warm water to activate. Allow it to remain in the drain at least 4 hours before using again.

| Line (in.) | DRAIN FOAM | Water (oz.) |
|------------|------------|-------------|
| 0-2        | 1 Package  | 4           |
| 2-4        | 2 Packages | 8           |
| 4-6        | 3 Packages | 12          |

**Bio-Based, All-Natural and Biodegradable.**

### GENERAL MAINTENANCE PRODUCTS

## DRAIN-FOAM

### Microbe Drain Maintainer

- A Blend of Microbes and Enzymes That Dissolves Clogs and Eliminates Slow Drains
- Dissolves Clogs Caused By Soap, Hair and Other Organic Materials
- Consumes Fat, Oil, and Grease "FOG" and Food Wastes
- It Creates a Two-Way Foam That Treats the Drain Line Up To 12 Feet
- Reduces Pest Infestation Including Drain Flies
- Odors Are Not Masked But Are Eliminated At the Source
- It Does Not Contain Any Acids, Caustics Or Solvents
- Foam Treats 360° of Drain Diameter

**CAUTION**

**KEEP OUT OF REACH OF CHILDREN**

NET CONTENTS: 16 x 4 oz PACKETS

#### CAUTION

Consumes fat, oil, grease and organic wastes, including proteins, starches, carbohydrates and cellulose. Use regularly to keep drains flowing. Odors are not just masked but are eliminated at the source. Does not contain any acids or caustics.

#### FIRST AID

**EYES:** Flush eyes for 15 minutes with cool, low pressure water.

**SKIN:** Wash exposed areas with soap and water.

**IF SWALLOWED:** Seek immediate medical attention. Do not induce vomiting. Drink 2 glasses of water.
