

LUMIN BRITE is a highly concentrated blend of detergents and inorganic acids formulated for the removal of oxides, scum, road film and diesel smoke deposits from aluminum truck bodies and trailers.

DIRECTIONS

To avoid corrosion, mix solution in a plastic pail or other suitable container. Dilute one part concentrate with 35 parts water. Apply **LUMIN BRITE** to the surface to be cleaned with a brush or sprayer, working in small sections from the bottom upward to avoid streaking.

Allow the solution to remain on the surface for 3 to 5 minutes. Do not allow surface to dry out during application. Agitate surface with a long handled brush to remove heavy soils, then rinse with clear water. Make certain that all traces of solution are rinsed away.

CAS Numbers: Contains 2-Butoxyethanol (111-76-2), Ammonium Bifluoride (1341-49-7), Exposure Limits for Fluoride as Dust (16984-48-8), and Phosphoric Acid (7664-38-2).

CAUTION

Product contains inorganic acids. Avoid contact with eyes, skin and clothing. It is advisable to wear protective clothing during application procedure. Keep container sealed when not in use. Rinse empty container before disposal in an authorized landfill site.

FIRST AID

IF IN EYES: Flush (including under lids) with water for at least 30 minutes. If irritation persists, get medical attention.

IF ON SKIN: Wash with cold water for at least 15 minutes. Use alkaline soap. If irritation persists, get medical attention.

IF INHALED: Remove to fresh air. Give oxygen if breathing is difficult. Get prompt medical attention.

IF SWALLOWED: Do not induce vomiting. Drink 3 to 4 glasses of water. Get immediate medical attention.

KEEP OUT OF REACH OF CHILDREN.
