

SHAMPOWER is an extraordinary carpet, rug and upholstery cleaning compound. This product is intended for the cleaning of carpets, rugs, furniture upholstery, automobile carpeting and upholstery, staircase runners, and as a spotter for carpets and rugs.

SHAMPOWER will dissolve and remove dirt, grease, oil, smoke and its odor, coffee, cola and other beverage spills, food residue, pet stains, cosmetics, grass stains and similar soils.

After cleaning with this product, using one of the methods listed below, the product will dry to a fine, white powder which can then be vacuumed away. The results will be a cleaned carpet or upholstery surface, optically brightened, anti-static, and free of sticky, soil attracting residue.

DIRECTIONS

Shampoo method: Dilute product at a rate of 1:15 with water and apply to the surface with a rotary-type shampoo machine. Work the solution into the fiber and allow to dry, normally 2 to 3 hours depending on pile depth. When completely dry, vacuum away the white powder and soils. To raise fabric pile, brush with a stiff, clean broom. Repeat vacuuming for further cleaning.

Spray method: Dilute product 1:15 with water. Using an appropriate sprayer, such as a pump-type, spray the solution onto the carpet or upholstery. Allow to thoroughly dry, then vacuum as above.

Spotter method: Dilute product 1:15 with water. Apply the product with a trigger sprayer to the area. Agitate with a brush. Allow to dry, then vacuum as above.

NOTE: For optimum results, it is advisable to follow all label instructions. Test a small area of carpet or upholstery, prior to application, as all fibers are not colorfast.

CAS Numbers: Contains Isopropanol (76-63-0)
