

EXTRACTO is a concentrated, low-foaming carpet cleaning product for use with cold or hot water extraction machines or steam cleaning units. This product is formulated with wetting agents, water softeners, penetrates, detergents, defoamers, and optical brighteners.

This multi-functional product is designed for cleaning of carpets, rugs, and upholstery. Due to the complexity of the formulation, **EXTRACTO** may be used to clean water-soluble soils such as dirt, coffee, cola, and grass stains, as well as oil-based matter such as grease, oils, and lipstick. The deep penetrating action of this product will clean carpet pile of soil and detergent residues, which cause compacting under foot traffic. The defoamer in the formulation helps to prevent over-foaming in the recovery tank of the carpet cleaning equipment. Optical brighteners act to restore original color and brilliance to carpet and upholstery.

DIRECTIONS

On stained or heavily soiled areas, pre-spot with a solution of product at a rate of 1:10.

Extraction Method: Pre-dilute concentrate with water at a rate of 1:25 and add to solution tank of unit. Depending on pile thickness, one gallon of diluted product will clean 500 to 800 square feet of carpet. **Spray-on Method:** Pre-dilute concentrate with water at a rate of 1:16. Use pump-up type sprayer and mist the entire carpet with this solution. After area has been covered with product, extract with clear water using steam, or hot or cold water.

CAS Numbers: Contains: 2-Butoxyethanol (111-76-2), Phosphate ester (39454-62-1), Potassium hydroxide (1310-58-3), Sodium tripoly phosphate (7758-29-4), and Sodium xylene sulfonate (1300-72-7).
