

PRE-TREAT RTU SOIL RELEASE AGENT can be sprayed down as a treatment prior to using **EXTRACTO** or **SHAMPOWER** to clean carpets. It is intended to be used in heavily soiled areas, especially traffic lanes or heavy stained areas as a pre-treatment soil release. **PRE-TREAT RTU** will work to release built in soil and stains and enhance the performance of your extraction or regular carpet shampoo. It will prevent deep stains from re-appearing after cleaning. **PRE-TREAT RTU** deep cleans and loosens ground in soils at the bottom of the carpet fiber. These soils are then extracted or shampooed out of the carpet fiber during the normal extraction or shampooing process. **PRE-TREAT RTU** may also be used for bonnet buffing or mop on cleaning.

DIRECTIONS

Spray soiled surface with a fine mist of **PRE-TREAT RTU** as supplied using either a hand trigger sprayer or compression sprayer. Allow **PRE-TREAT RTU** to remain on surface for several minutes prior to Hot/Cold Water Extraction, Shampooing or Bonnet Cleaning. For actual cleaning by Extraction, Shampooing or Bonnet Cleaning, follow use dilution directions for the cleaning chemical used and the machine manufacturers procedures specific to cleaning operation employed.

CAS Numbers: Contains: Butyl Cellosolve (111-76-2), Isopropyl Alcohol (67-63-0), Ethylenedumincetraacetic Acid (1310-73-2), Tetrasodium Salt, Sodium Xylene Sulfonate (1300-72-7), Tetra Potassium Poly Phosphate (732-34-5).

CAUTION
Do not use on wool carpets.

FIRST AID

IF IN EYES: Flush eyes with large quantities of clear, cool water. Seek medical attention if irritation persists.

IF ON SKIN: Remove contaminated clothing. Flush with large quantities of water. Seek medical attention if irritation persists.

IF SWALLOWED: Do not induce vomiting. Drink large amounts of water or milk to dilute in stomach. Seek immediate medical attention.

IF EXCESSIVELY INHALED: Remove to fresh air.

KEEP OUT OF REACH OF CHILDREN
