

**PRE-TREAT** SOIL RELEASE AGENT can be sprayed down as a treatment prior to using **EXTRACTO** or **SHAMPOWER** to clean carpets. It is intended to be used in heavily soiled areas, especially traffic lanes or heavy stained areas as a pre-treatment soil release. **PRE-TREAT** will work to release built in soil and stains and enhance the performance of your extraction or regular carpet shampoo. It will prevent deep stains from re-appearing after cleaning. **PRE-TREAT** deep cleans and loosens ground in soils at the bottom of the carpet fiber. These soils are then extracted or shampooed out of the carpet fiber during the normal extraction or shampooing process.

**PRE-TREAT** may also be used for bonnet buffing or mop on cleaning.

#### DIRECTIONS

Steam cleaning or cold water extraction. Spray soiled surface with a fine mist diluted 1:32 (4oz/gal water) in either a hand trigger sprayer or tank sprayer. Bonnet buffing or mop-on cleaning. Dilute 1:32 (4 oz/gal water) in a bucket and submerge and wring before applying.

**CAS Numbers:** Contains: Butyl Cellosolve (111-76-2), Isopropyl Alcohol (67-63-0), Ethylenedumincetraacetic Acid (1310-73-2), Tetrasodium Salt, Sodium Xylene Sulfonate (1300-72-7), Tetra Potassium Poly Phosphate (732-34-5).

#### CAUTION

Do not use on wool carpets.

#### FIRST AID

**IF IN EYES:** Flush eyes with large quantities of clear, cool water. Seek medical attention if irritation persists.

**IF ON SKIN:** Remove contaminated clothing. Flush with large quantities of water. Seek medical attention if irritation persists.

**IF SWALLOWED:** Do not induce vomiting. Drink large amounts of water or milk to dilute in stomach. Seek immediate medical attention.

**IF EXCESSIVELY INHALED:** Remove to fresh air.
