

**GUARD** is a revolutionary breakthrough in polymer chemistry. It provides a protective barrier for carpet fibers to help retard staining, soiling and simultaneously prevents fiber degradation by abrasion. **GUARD** dries to an invisible protective film which encapsulates each and every carpet fiber to prevent rapid resoiling of shampooed carpets and rugs. Treated areas are soft and free of streaks, spots and stains.

**NOTE:** Do not confuse **GMP's GUARD** with other products that may look or claim to be the same. There is only one **GUARD**. With substitutes, you may sacrifice carpet fiber protection and experience premature carpet deterioration.

### DIRECTIONS

Affix the trigger sprayer to the container, as supplied. Adjust sprayer to deliver a light misting of **GUARD**. Apply to the carpet with a smooth, even motion from waist level. Be certain not to miss areas. Continue application until the entire area has been misted and is slightly damp to the touch. Allow to dry completely before the area is put back into service.

**NOTE:** Always use **GUARD** at full strength. Do not dilute or add any other chemicals. Do not use on wool or velvet. If product contacts furniture legs, wipe off with a clean, damp cloth.

**CAS Numbers:** Contains polyfluoroaliphatic emulsion (N/A mixture)

### CAUTION

Use caution. Do not allow to freeze.

### FIRST AID

**IF IN EYES:** Flush eyes with large quantities of clear, cool water. Seek medical attention if irritation persists.

**IF ON SKIN:** Remove contaminated clothing. Flush affected areas with water. Prolonged contact may cause dermatitis.

**IF SWALLOWED:** Drink a large quantity of water. Seek medical attention immediately.
