# I. IDENTIFICATION

Product identification used on labelProduct Name:CProduct Identifier:CRecommended Use of theCChemical and restrictions on use:

**ODOR FRESH** C860 GRANULAR ODOR COUNTERACTANT

Supplier:	GENERAL PRODUCTS & SUPPLY, INC. 101 TECHNOLOGY LANE EXPORT, PA 15632
Emergency Phone: Number:	EMERGENCY PHONE: (800) 255-3924 INFORMATION PHONE: 800-548-2080 INFORMATION FAX: 412-325-4522 IF SWALLOWED CALL YOUR POISON CONTROL CENTER AT 1-800-222-1222

### II. HAZARD(S) IDENTIFICATION

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

GHS Classification:	Skin Sensitisation Category 1; Specific Target Organ Systemic Toxicity (STOT) - Repeated Exposure
	Category 2; Acute Toxicity - Inhalation Dust / Mist Category 4
GHS Signal Word:	Warning
GHS Hazard	May cause an allergic skin reaction. Harmful if inhaled. May cause damage to organs through prolonged or repeated exposure.
	Inhalation of excessive concentration s of any dust, including this material, may lead to lung injury. This product contains Crystalline Silica. Excessive inhalation of respirable crystalline silica may cause silicosis, a progressive, disabling and fatal disease of the lung. Symptoms may include cough, shortness of breath, wheezing and reduced pulmonary function. The International Agency for Research on Cancer (IARC) in Monograph 68 has concluded that crystalline silica inhaled in the form of quartz or cristobalite, from occupational sources is a carcinogenic to humans (Group 1). However, in making the overall

evaluation, the working group noted that carcinogenicity was not detected in all industrial circumstances studied. Carcinogenicity may be dependent on inherent characteristics of the crystalline silica or on external factors affecting its biological activity or distribution of its polymorphs. The National Toxicology Program (NTP) classifies crystalline silica as a known carcinogen. The company is not aware

of any scientific or medical data available indicating that exposure to dust from this product under conditions of normal use will cause silicosis or cancer. Adverse effects would not be expected from normal use of this product.

<b>GHS Precautions:</b>	
Safety Precautions:	Use only outdoors or in a well-ventilated area. Contaminated work clothing should not be allowed out of
	the workplace. Wear eye protection.
First Aid Measures:	IF ON SKIN: Wash with plenty of soap and water. IF INHALED: Remove victim to fresh air and keep at rest
	in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.
	Get medical advice/attention if you feel unwell). If skin irritation or rash occurs: Get medical
	advice/attention. Wash contaminated clothing before reuse.
Storage & Disposal:	Store in a cool, well ventilated area. Dispose of contents/container in accordance with
	local/regional/national/international regulation for hazardous wastes.

### **III. COMPOSITION/INFORMATION ON INGREDIENTS**

Chemical Name	CAS #	%
Fullers earth	8031-18-3	30 - 60
Crystalline silica	14808-60-7	1 - 5
n-amyl acetate	628-63-7	15 – 40
Oils, orange sweet	8008-57-9	10 - 30
2-Methyl-2,4-pentanediol	107-41-5	5 - 10
Butanoic acid, ethyl ester	105-54-4	1-5
Butanoic acid, 3-methylbutyl ester	106-27-4	0.5 – 1.5

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret is required.

### **IV. FIRST-AID MEASURES**

Inhalation:	Remove to fresh air. If breathing is difficult, have a trained individual administer oxygen. If not breathing, give artificial respiration and have a trained individual administer oxygen. Get medical attention immediately
Eyes:	Flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Get immediate medical attention.
Skin Contact:	Wash with soap and water. Remove contaminated clothing and launder. Get medical attention if irritation develops or persists.
Ingestion:	Do not induce vomiting and seek medical attention immediately. Drink two glasses of water or milk to dilute. Provide medical care provider with this MSDS.

Use local exhaust		

C860 ODOR FRESH

specific standard in 29 CFR 1910. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits Facilities storing or using this material should be equipped with an eyewash and safety shower.

- **Respiratory Protection:** Respiratory protection may be required to avoid overexposure when handling this product. General or local exhaust ventilation is the preferred means of protection. Use a respirator if general room ventilation is not available or sufficient to eliminate symptoms. Follow a respiratory protection program that meets 29 CFR 1910.134 and ANSI Z88.2 requirements whenever work place conditions warrant the use of a respirator. **Eye Protection:** Wear chemically resistant safety glasses with side shields when handling this product. Do not wear contact lenses. Wear goggles and a Face shield **Skin Protection:** Wear protective gloves. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work **Gloves:** No information available Handling Instructions: Use spark-proof tools and explosion-proof equipment As with all chemicals, good

#### **IX. PHYSICAL AND CHEMICAL PROPERTIES**

Physical State:	Solid (Granular)	
Color:	Earthen Brown	
Odor:	Bubble Gum Like	
Odor Threshold:	ND	
pH:	Not Available	
Flash Point:	> 145 º F	
Evaporation Rate:	Not Available	
Flammability (Solid, Gas):	No Data Available	
Upper Flammable/Explosive Limit:	Not Available	
Lower Flammable/Explosive Limit:	Not Available	
/apor Density:	>1	
Relative Density:	1	
Solubility in Water:	Soluble in water- No	
Volatiles, % by weight:	1.75	
Volatiles, % by weight:	1.75	
Bulk Density:	279.357	

#### X. STABILITY AND REACTIVITY

C860 ODOR FRESH

Reactivity:	No Data Available
Chemical Stability:	Stable under normal conditions.
Possibility of Hazardous Reactions:	No Data Available
Conditions to Avoid:	Temperatures above flash point in combination with sparks,
	open flames, or other sources of ignition.
Materials to Avoid/Chemical Incompatibility:	Strong oxidizing agents Acids Strong alkalies Nitrogen oxides
Hazardous Decomposition Products:	Carbon dioxide Carbon monoxide

# XI. TOXICOLOGICAL INFORMATION

Routes of Entry: Inhalation, Ingestion, Skin con		ontact, Eye contact		
Most Important No Data Available				
Symptoms:				
	tially Affected by Exposure:	Eyes, Nervous System, Respiratory Tract, Skin		
Chemical Interactions That Change Toxicity: Medical Conditions Aggravated by Exposure:		None Known		
		Eye disease, Respiratory disease including asthma and bronchitis, Skin disease including eczema and sensitization		
	alth Effects by Route of Exposu	re:		
Inhalation Irritatio	n: Can cause res	spiratory irritation.		
Skin Contact:	Can cause me	oderate skin irritation, defatting, and dermatitis. Not likely to cause		
	permanent d	amage.		
Eye Contact:	Can cause mo	oderate irritation, tearing and reddening, but not likely to permanently		
-	injure eye tis	sue.		
Ingestion Irritatior		nouth, throat, and stomach. Can cause abdominal discomfort, nausea,		
U	vomiting and			
Ingestion Toxicity: Harmful if swa				
Long-Term (Chronic	c) Health Effects:			
Carcinogenicity:	IARC and NT	Phave determined that respirable crystalline silica inhaled from		
	•	sources can cause cancer in humans. Risk or injury is dependent upon		
		on and level of exposure. Crystalline silica is not regulated as a human		
	•	y the Occupational Safety and Health Administration (OSHA) as a		
	carcinogen.			
Reproductive toxic	-	able to indicate product or any components present at greater than		
	0.1% may cau	use birth defects.		
Germ cell mutager	nicity: No data avail	lable to indicate product or any components present at greater than		
0.1% is mutag		genic or genotoxic.		
Inhalation:	Upon prolon	ged and/or repeated exposure, can cause moderate respiratory		
	irritation, diz	ziness, weakness, fatigue, nausea and headache.		
Skin Contact:	Upon prolon	ged or repeated contact, can cause moderate skin irritation, defatting,		
		is. Not likely to cause permanent damage.		
Skin Absorption:		ged or repeated exposure, no hazard in normal industrial use.
