

DERMA-KARE is formulated with cosmetic components to offer excellent cleansing without any of the disadvantages of the older traditional liquid soaps. This product is thorough and completely free rinsing and will not curd, even in the hardest waters.

DERMA-KARE is superior for use in washroom dispensers and reservoir systems for it cannot dry out and clog outlets. Regular use of this product will simplify washroom maintenance, since it will not form soap scum on washbasins or shower stalls.

NOTE: Do not confuse **GMP's DERMA-KARE** with other products that may look or claim to be the same. There is only one **DERMA-KARE**.

DIRECTIONS

Wet hands and skin first. Apply a small portion of concentrated **DERMA-KARE** to palms and work into a dense lather. Rub lather over hands and body. The lather produced is exceptionally mild and will leave the skin conditioned. Rinse and then dry hands and body well.

CAS NUMBERS: Contains coconut oil diethanolamide (61789-19-3), polystyrene emulsion (35209-54-2), citric acid (77-92-9), and sodium laurel sulfate (151-21-3).

CAUTION

Do not store in areas where product may freeze.

FIRST AID

IF IN EYES: Flush eyes with large quantities of clear, cool water. Seek medical attention if irritation persists.

IF SWALLOWED: Drink a large quantity of water. Seek medical attention immediately.
