

T.S.R.W.* is a pleasantly scented, viscous detergent composition which clings to vertical surfaces. Every application of **T.S.R.W.*** removes lime scale, metallic stains, plumber's stone, rust grease, oil, slime, and uric acid crystals from a multitude of surfaces. **T.S.R.W.*** is concentrated and should be diluted with 3 to 5 parts water, depending on cleaning situation.

T.S.R.W.* can be used, full strength, on urinals, toilets, ceramic floors, and drains. **T.S.R.W.*** should be diluted if being used on drinking fountains, shower stalls, steam tables, coffee urns, water meters, sinks, bradley basins, bed pans, brass, stainless steel, scuppers, bronze, swimming pools, concrete etching, drains, process equipment, grouting, fixtures, and sterilizers.

DIRECTIONS

To clean toilets and urinals: There is no need to force water over the trap with **T.S.R.W.*** Apply, as supplied, to the inside edge of the bowl top or urinal. Allow a few minutes for the product to coat the sides and penetrate soils. Swab thoroughly, including areas under the rim. Rinse by flushing.

To clean sinks, tubs, stalls, fountains, and other items listed above: Dilute product with 3 to 5 parts water. Wear gloves to apply **T.S.R.W.*** by wet spray, sponge, mop or brush. Allow the product to remain on the surface for a few minutes. Agitate and rinse with water.

CAS Numbers: Contains phosphoric acid (7684-38-2), nonionic surfactant (9016-45-9), xanthan gum (11138-66-2), polystyrene emulsion (35209-54-2) and water (7732-18-5).
